Grape Plant Specialists

WE make a specialty of growing fine grape plants, both on their own roots and on grafted stock. We have fifty or more varieties, but are only listing a few of the leaders. The grafted plants of the (Vinifera) or California specie will be sent prepaid with full instructions as to how to grow them. We had clusters in our vineyard last season weighing 2 to 2¾ lbs. Quality fully equal to those from California.

We maintain a high standard for all our other trees and shrubs, and quote the lowest possible price.
